

For Immediate Release

Minden, ON. Wednesday May 3, 2017

2:00 pm

Release #17-14

SUBJECT: Public Notice – FLOOD WARNING for Gull River Watershed and the Surrounding Lakes and Rivers

The Gull River Watershed continues to be very vulnerable to the inflow of water. The **outflow of water on Horseshoe Lake, through the Gull River, will increase today and over the next 24 hours.**

Water levels will rise as much as **20-25 cm or 8-10 in.**, and remain high, as water is being moved down through reservoir lakes upstream of Minden; which are currently at, or above, capacity. The anticipated increase in water levels will reach the levels that were seen in 2016.

The Township will communicate all information by means of media broadcasting and media releases to radio stations, local newspapers and our website.

All property owners, especially those who have a historical susceptibility to flooding, are being asked to monitor their situation, as each will vary based on some, or all of the following factors: distance from watershed(s), distance from an unaffected accessible road, height of land, property saturation levels, the availability, number, size and type of sump pump, etc.

Residents are asked to share this information with their neighbours and other individuals who may not have access to the Township's website.

SANDBAGS:

Residents are advised that sand and sandbags are available for use at the following locations:

- S.G. Nesbitt Community Centre, located at 55 Parkside Street, Minden.
- Roads Department Yard #3, located at 4564 County Road 121 (Kinmount location), in the Sand Dome to the left of the entrance.

This resource is primarily self-serve, please remember a shovel. Residents are encouraged to think of their neighbours - don't forget about those around you that may have difficulty with this task.

Please see the following link regarding the proper procedures for the filling and placement of sandbags:

<https://mindenhills.ca/assets/Sand-bagging-and-dike-construction.pdf>

Many of the local ditches are holding water, and residents are reminded to stay clear of these areas.

Portions of the Minden Riverwalk and Boardwalk may be under water and are closed to pedestrian traffic.

Residents are asked to avoid driving on any roadways that are underwater, as road conditions may be unstable and dangerous.

A reminder that private roads are not being monitored by the Township and those residents needing to access these roads should do so with caution.

The municipality will remain in contact with the Ministry of Natural Resources and Trent Severn Waterways in order to receive updates.

Suggestions to Assist you During a Flood Warning:

- Be Prepared - Build an Emergency Survival Kit that allows you to be self-sufficient for at least 72 Hours.
- Keep Emergency Contacts Near Your Phone
- Check Your Sump Pumps - Ensure the sump pit is clear of debris and that all electrical connections are plugged in correctly and circuit breakers are operational. Check your maintenance manual for instructions on how to check the float, test the check valve and clean the impeller.
- Hydro – If you are concerned about water in or around your residence, or other buildings, call the Hydro Call Centre at 1-888-664-9376. Disconnected services may impact water removal equipment (i.e. sump pumps); therefore, it may also be necessary to contact your insurance company.
- Remember to keep all items up and off the floor where potential flooding could occur.

For more information regarding notices, including road closures, water levels and suggestions to assist you during the Flood Warning, please visit the Township website at www.mindenhills.ca. Information on road closures can also be obtained by visiting the [Road Closure App](#), accessible from the township website or by typing the following url into your web browser's search bar: roadclosures.haliburtoncounty.ca.

To receive important information and updates, including in the event of an emergency, please ensure that you are subscribed to the Minden Hills website, by following these easy instructions:

- On the bottom right hand side of the Minden Hills website, type in your email address into the "Subscribe to Alerts" box and click the gray arrow.
- Confirm your email address on the next prompt screen.
- Enter in the digits in the captcha box and click the submit button.
- You should receive an email to complete the subscription process, if you don't, check your junk mail.
- Your confirmation email will provide you with a link, select the link.
- The link will allow you to customize your subscription list.
- Select "Emergency Alerts" to receive emergency posts and notifications.

- Select “Newsroom” to receive all other non-emergency posts, including water levels and road closures notifications.
- Select other categories if interested in receiving notifications.
- Select save.

The Township will communicate all information by means of broadcasting media releases to local media, radio stations and the Township website.

Tune into Canoe FM 100.9 and Moose FM 93.5 for these broadcasts.
