

2017 Ontario Spring Floods : Assistance towards Recovery

What?

Assistance is based on need

to help those who have been impacted by the spring floods recover.

Who?

In order for households to be eligible for this second phase of financial assistance, **they must already be registered with the Red Cross**, and must already be validated as a flood-impacted household.

If impacted households have not registered with the Red Cross, they can still register by going **online** at redcross.ca/gethelp or by **calling** [1 800 863 6582](tel:18008636582)

There are a number of criteria to determine how much financial assistance each registered household is eligible to receive. **Amounts per household will vary, depending on each family's unique situation.**

Eligibility will be based on municipally assessed property values of flood-impacted residences. In Ontario, properties valued at \$500,000 and lower will be eligible. Properties valued higher than the maximum value do not qualify for further assistance.

How ?

Residents from registered households will be contacted by a Red Cross caseworker to determine their eligibility for this next stage of recovery assistance and to determine how they would like to continue the assessment process (phone or face-to-face).
