Your Vision for Minden – Existing and Future

What words come to mind when you think of the **EXISTING** condition of Minden Village?

(This can be either physical/architectural, social, economic, etc. - both strengths and weaknesses!)

What words come to mind when you think about how you would like to see Minden Village in the **future?** (This can be physical/architectural, social, economic, etc.)

Your Vision for Minden - Heritage

What is heritage?

- Heritage can take many forms including landscapes, structures, neighborhoods, streetscapes, cemeteries, museums, archival material and narratives that tell us about our community and our people's past. They can inspire and guide us in building vibrant, liveable communities for future generations.

What do you think are important elements of Minden's heritage?

(This can be properties, design elements, monuments, historical legacies, landscapes, anything!)

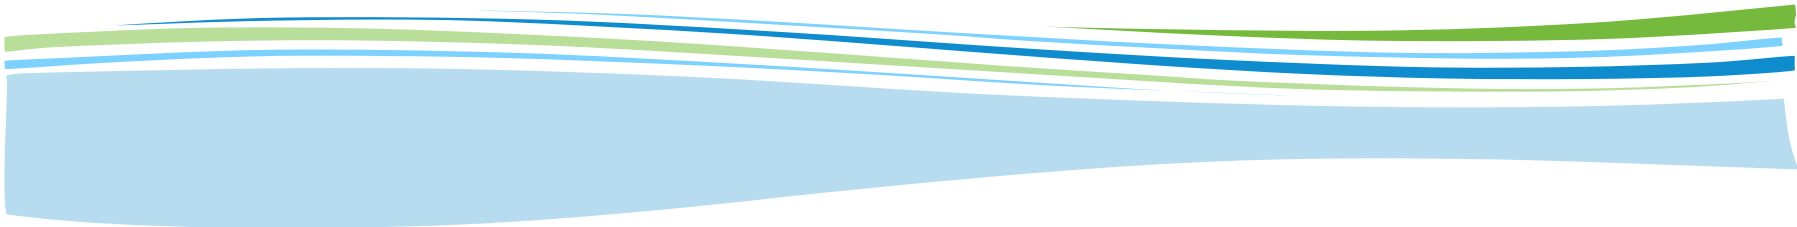

What do you think are priorities?

If you only had \$50 (fifty dollars) to spend on a CIP project, where would you put it?
Use your stickers to show us where you think money would be best spent:

<p>Heritage Study/ Heritage Design Guidelines</p> 	<p>Private Building Façade Improvements</p> 	<p>Streetscape Improvements (hanging baskets, garbage cans, etc.)</p> 	<p>Traffic Management (streetlights, speed humps, etc.)</p> 	<p>Improved wayfinding and connectivity (signage, etc.)</p> 	<p>Community Events (markets, festivals, sidewalk-sales, pop-up events, etc.)</p> 	<p>Attracting new business/ utilizing vacant land and buildings</p> 	<p>Improving accessibility and walkability</p> 	<p>New/ Improved Parking Areas</p> 	<p>Other (Please tell us!)</p>
