

## WEEK 3

### LOOK UP AT THE NIGHT SKY

#### *Go Stargazing!*

We are very fortunate in this County to be able to see most of the night sky without any light pollution, tall buildings or anything else obstructing our view. Grab a blanket, gather the kids and head outdoors to see the wonders the sky beholds and relay the myths of the constellations above.

Can't quite remember the tale behind Orion or Pleiades? Check out the following link to find these tales and many more: <http://www.tcoe.org/scicon/instructionalguide/constellations.pdf>

A little rusty on how many stars are actually in Ursa Major? That's okay! There's an app for that: <https://www.hongkiat.com/blog/stargazing-apps/>

Want to try things a little more "old school"? Check out the following link to discover how you can make your own star wheel with the kids: <https://skyandtelescope.org/astronomy-resources/make-a-star-wheel/>

### GO FISHING

Fishing is a great way to take time from your daily routine to find a stream, lake or pond, bait your hook, cast your line and catch a fish or two (or ten depending on how your story is told) and there are a number of waterways within our township to find the solitude you are looking for.

Before heading out, make sure that you are up to date on licenses, open seasons and more by checking out: <https://www.ontario.ca/page/fishing>

### TAKE A HIKE

#### *Explore the White Water Preserve!*

The Minden Whitewater Preserve is a 100 acre park with approximately 3 kms of trails adjacent to a some of Canada's best whitewater rapids. This preserve is privately owned and operated by Whitewater Ontario for the use of its members, guests, and paddlers.

**Find it!** 1020 Bethel Rd, Minden Hills
